### Preventing and Ending Homelessness by Removing Legal Barriers: A Partnership Taking Best Practice to Scale

**Moderator** 

• Amy Horton-Newell, JD, Director, American Bar Association Center for Public Interest Law

**Presenters** 

• Antonia Fasanelli, JD, Executive Director, Homeless Persons Representation, Baltimore, MD

• **Debbie Powell**, Deputy Associate Commissioner, Family and Youth Services Bureau, U.S. Department of Health and Human Services

• Selena Hunn, Senior Program Manager, Equal Justice Works

- Administrative, civil and criminal legal issues create legal barriers to benefits, education, employment, housing, treatment and services for people experiencing homelessness.
- Only a lawyer and/or the court can remove legal barriers.
- If legal barriers are not addressed at the outset, then our efforts to house and employ people are often frustrated when standard background checks show credit issues, noncompliance with child support orders, unpaid tickets/fines, outstanding warrants, etc.
- The ABA motto of "Defending Liberty, Pursuing Justice" underscores the mission of the ABA Center for Public Interest Law and Commission on Homelessness & Poverty: to remove legal and justice system-based barriers that create or perpetuate homelessness and poverty.
- Lawyers can not only remove barriers and secure benefits—lawyers can enforce rights and lead legislative efforts that improve policy, funding and systems.

Lessons Learned from Interdisciplinary Collaboration to End Veteran Homelessness:

- Engage lawyers early and often
- Increase legal services
- Coordinate efforts to best leverage resources
- Strategically invest in critically needed services

### HPRP Veterans Legal Assistance Project ROI

\*FY 2018 = July 1, 2017 – June 30, 2018 Do not reproduce without permission

# **Client Success Stories**

### From HPRP's Rural Legal clinic:

Mr. K, a 57 year old veteran, was unable to maintain employment because of mental health and auto-immune conditions related to his military service. At the time of his intake with HPRP, he was attending doctors appointments or VA programming on a daily basis to treat his service connected disabilities and lacked stable housing. Mr. K's HPRP lawyers represented him in his claim for VA serviceconnected disability benefits and he obtained a \$50,000 back award and a 100% rating with a monthly compensation award of \$2,915.55 for total disability based on individual unemployability. Mr. K is now stably housed.

# **Client Success Stories**

### Discharge Upgrade

 Mr. A served in the Army from 2009-2013 and was exposed to combat in service and nearly killed by an improvised explosive device (IED). Received general discharge for failure to complete alcohol rehabilitation. Since discharge, Mr. A has worked hard at his sobriety and obtained Master's degree, but was repeatedly denied employment *because of his* discharge.

Mr. A's HPRP pro bono attorney learned that despite the reason for his discharge, the veteran actually completed alcohol treatment while in service!

- Evidence: Proof of successful completion of treatment and testimony of the treating therapist;
- Action: HPRP's pro bono attorney filed an upgrade application with the Army Discharge Review Board and asked for a personal hearing based on error and equitability
- Result: The Discharge Review Board commented on how rare it is that an attorney is present at the hearings, and that they were impressed with the organization and layout of the material and argument. In record time, the Discharge Review Board granted the upgrade on in December 2017.

The ABA has committed funds to support the development and implementation of a national Homeless Youth Legal Network (HYLN)—a new initiative to increase legal services for youth and young adults experiencing homelessness by fostering greater capacity and connectivity. As a catalyst and convener to address the *legal* issues of homeless youth and improve outcomes for those transitioning from the child welfare system and exiting the juvenile justice system through direct representation, the ABA invites federal partners and national, state and local organizations to join the effort to develop the Homeless Youth Legal Network.

### Here's what we know:

More than half the country doesn't have any lawyers serving homeless youth.

Legal barriers impacting youth experiencing homelessness—and minors specifically—can be complex.

Legal barriers to housing and employment will present roadblocks.

There is momentum on the national, state and local levels to prevent and end youth homelessness.

There are lessons to be learned from the success in the veteran space—particularly in the interdisciplinary collaboration among Federal partners, funders, advocates, service providers and the legal community.

#### Legal Needs and Barriers Identified by Homeless Young People and Providers

Helping homeless youth and young adults reduce barriers:

- To inform young people of their legal rights, go anywhere homeless youth are.
- To prevent homelessness for youth in foster care, case managers should check in with them weekly.
- The best advocacy for homeless youth in the child welfare or criminal justice system comes from a person outside the system approaching a young person on a personal level.

#### Homeless Youth in Baltimore City

- In 2017, 1,690 youth under the age of 25 were counted as homeless and unaccompanied by a parent or guardian in Baltimore City.
  - 20% percent lived on the street, in a park or in a car,
  - 19% lived with a stranger and
  - 11% lived in an abandoned dwelling.
- Furthermore, Black youth and lesbian, gay, bisexual, or transgender (LGBT) youth – populations disproportionally subject to poverty, discrimination, criminalization, and harassment – are significantly overrepresented amongst homeless youth.

## Legal Needs of Homeless Youth

 U.S. Interagency Council on Homelessness 2016 report
 "Enhancing Access to Legal Services for Youth Experiencing Homelessness" unaccompanied homeless youth often encounter legal barriers to stabilizing their lives. These legal obstacles

include:

- wrongful denial of housing,
- employment and income supports, and
- healthcare.

https://www.usich.gov/news/enhancing-access-to-legalservices-for-youth-experiencing-homelessness/

## Legal Service Method

- Youth-centered!!!
- Meet youth where they are, both literally and figuratively
- Partner with homeless youth services and youth workforce programs to address any civil legal needs youth identify as priority areas

#### LOCATIONS

- Drop-In Center (Youth Empowered Society)
- Shelter (Eastside Yo! Center)
- Center for Urban Families, STRIVE Future Leaders Program (local affiliate) - https://strive.org/programs

#### HYI's Homeless Youth Legal Network

- Recruit lawyers with experience in particular issue areas:
  - Child welfare;
  - Family Law;
  - Social Security survivors & disability benefits;
  - Name Change;
  - Expungement
- Enables HYI to provide holistic representation
- Volunteers trained by homeless youth themselves, together with HYI staff

## Client Impact Stories – "The Justice League"

- 17 year-old "Nestor" was living on the street when referred to HPRP's HYI. 3 legal issues:
  - accessing housing;
  - obtaining Social Security Survivor's benefits; and
  - obtaining food stamps.
- HYI ensured:
  - He was connected with an HYI network volunteer with experience in child welfare law to advise him about accessing housing through the foster care system;
  - Another HYI volunteer attorney represented Nestor in accessing Social Security Survivor's benefits; and
  - HYI staff helped Nestor access Food Stamps and advised him of his education rights.

Nestor dubbed his legal team "the Justice League." While his Social Security matter is pending, Nestor has Food Stamps and is living in a more stable housing situation while awaiting permanent housing.

## **Client Impact Stories**

- HYI met 24 year old "Charlotte" in October 2017. She was fleeing physical and emotional abuse, which caused her mental health to deteriorate to the point where she was suicidal. She was facing loss of her housing because she was unable to pay her gas and electric bill. She had already lost custody of her two-year old daughter. She was devastated and overwhelmed with civil legal needs related to safety, housing, public benefits, disability, and energy assistance. HYI quickly addressed her immediate needs for safety, food and mental health treatment and then focused on her housing. Through HYI's intervention:
  - Charlotte retained her government-provided housing subsidy; and
  - obtained financial assistance to pay her utility bills.

Within a matter of weeks, Charlotte looked and sounded like a different person. Today, Charlotte is stably housed and has regained custody of her daughter.

## Systemic Change

- With current and formerly homeless youth, primarily from Youth Empowered Society (YES) Drop-In Center, to advance state & local policies
- Success:
  - Maryland's 1<sup>st</sup> Task Force to Study Housing and Supportive Services for Unaccompanied Homeless Youth (2013);
  - Youth REACH, an ongoing initiative to enumerate and understand the needs of unaccompanied homeless youth statewide (2014);
  - Establishing a higher education tuition waiver for unaccompanied homeless youth (2014);
  - Preventing homelessness for youth aging out of foster care by mandating certain reporting to the Courts (2015); and
  - Passage of the Ending Youth Homelessness Act (EYHA), legislation which created Maryland's first state program to fund housing and supportive services for unaccompanied homeless youth (2018).

# Funding

- 2012 HYI launched as Skadden Fellowship, support of small family foundation
- 2015 several small family foundations
- 2017 American Bar Association selection as HYLN Model Program followed by large foundation multi-year grant, small family foundations
